

It Takes a City

Although our firm has been part of the Worcester community for nearly two hundred years, we have never been more aware of how much we depend on each other. The community that enables us to exist and thrive reaches far beyond our colleagues, our staff, our treasured clients and friends. Our very lives and livelihoods depend on the efforts of so many, from farmers and truck drivers to our heroic health care workforce.

This strong city gave us the foundation to expand with seven more offices, becoming a regional firm and serving clients throughout New England.

As we look toward a future we believe is filled with promise, the perspective we've gained from our longevity tells us that unimaginable changes await us, and that many of the advances and discoveries will happen right here in this great city. Just as our past is woven into the fabric of Worcester's history, so is our future.
